

PANE OF THRONES

By

Michael J. Smith

Based on "Game of Thrones"

And

"A Song of Fire and Ice"

By

George R.R. Martin

1. INT. DINING HALL. DUSK.

A sullen MAN sits, head down, at a large wooden table.

SLOW ZOOM TO MEDIUM FRAME

JON SNOW
(He raises his eyes to
camera, speaks dramatically)

Winter is coming...

QUICK CUT TO TIGHT FRAME

JON SNOW
(He cocks his head to the
side, speaks comically)
I'm not kidding...
(He raises his eyebrows for
emphasis)
...it's really going to get
cold around here...

2. INT. STONE PASSAGEWAY. DUSK.

The MAN walks down a stone passageway. Torch sconces
light the walls.

FOLLOW IN MEDIUM FRAME

JON SNOW
(walking, again speaking
dramatically)
When the lake wind howls,
when the snow falls a hundred
feet deep and when the white
armies march from the North...

JON SNOW
(stops walking, speaks to
camera, nods toward hole in
wall)
Will your drafty, old
windows...keep them out?

3. INT. MODERN HOME. DAY

The MAN'S medieval clothing now appears out of place in
this modern, comfortable setting.

MEDIUM FRAME

JON SNOW
(pleading importance)
To survive, you'll need Peak
Performance Elite-Glass
windows from Excel Windows.
They combine Triple-glazing,
Low-E glass and krypton gas
to offer an insulating value
that far exceeds Energy Star
criteria.

4. INT. MODERN HOME. DAY

The MAN'S reclines on comfortable furniture near window.

MEDIUM FRAME

JON SNOW
They'll save you energy and
money, increase the comfort
of your home, and protect
your valuable possessions
from sun damage, white
walkers and other
supernatural threats.

5. INT. MODERN HOME. DAY

The MAN moves to another window. A large menacing MAN with burn scars covering half his face is seen through the window. As the large MAN'S face shows a wicked snarl, the MAN pays no attention and slides a curtain shut obscuring the large MAN whose snarl turns to disappointment.

MEDIUM FRAME

JON SNOW

(taps window frame with sword)

They're made from the best quality wood, fiberglass and vinyl with an optional upgrade to Valyrian Steel

6. EXT. BATTLEFIELD. DAY

A beautiful WOMAN with long blonde hair stands with her back to the camera in front of a line of soldiers standing at attention holding spears and round shields. Her bluish gown in stark contrast to the dull grey armor on her soldiers.

SLOW ZOOM TO TIGHT FRAME

JON SNOW

(voice over)

Sure, we've got great reviews from Angie's List and Yelp, but our greatest fan is the Mother of Dragons, First of her Name, Protector of Chicago and Lady of the Suburbs...

JON SNOW
(voice over)
Yes, she who would be Queen
loves Excel Windows.

The WOMAN turns her head over her shoulder to face camera, smiles and winks. It is seen that she is an ugly woman with dark eyebrows and beard.
